ARE FLOODING THE STATE

Why the Old Democratic Howl of Negro Colonination Has Been Raised.

Trying to Cover Up the Impor a ion of Slum-Denizens of Near Civies to Vote for Cleveland-Holt's Free Tickets.

The managers of the Republican party in Indiana have received information which convinces them that the Democrats are depending upon an imported vote from Louisville, Cincinnati, Chicago and other cities in their effort to carry the State for Cleveland. The Democratic organs have been sounding a cry of warning that the Republican State central committee has been importing negroes. From the evidence referred to above the committee is now satisfied that the Democratic cry was merely the old one of "Stop thief" in another but not a new form. It has been sounded so often before that the people regarded it as a "wolf" scare. But now it has another purpose, that of hiding the Democratic scheme devised to defeat the will of the people. While such a scheme is a confession of weakness, the fact remains that on a fair vote, all cast and counted. Indiana is a Republican State. No one realizes this better than Chairman Taggart, who must fcontend in the campaign not only with this fact, but with several other influences equally disconraging. The first of these is the oppressive exactions of the new tax law, and the second in importance is the utter tailure of the Democratic party to give the wage-earners and ex-soldiers of the State the slightest recognition. Against such in-fluences Mr. Taggart and his co-workers, know they have no hope of winning unless their party vote is inflated from outside

it thus happens that a large number of strangers have been recognized in several of the small cities of the State. The re-ports came in so similarly from different parts of the State that Chairman Gowdy set to work to investigate them, and found that the strangers are all Democrats. They pretend to be hunting work, but seem to be well supplied with money. They manifest indifference to the curiosity of the general public in the small cities, which their presence excites, and old Republican workers say they act just as Democratic repeaters used to do.

Mr. Gowdy has determined to thwart this disreputable scheme, and force the Democratic managers to be honest. He has declared that every means shall be taken to secure a fair and square vote. The law will be appealed to in every instance where illegal voting may be attempted. The discovery of the chairman has created a profound sense of responsibility with Republican leaders all over the State, mingled with a conviction that such methods on the part of Democrats show that they have little hope of carrying the State on the merits of the campaign.

Everything Is Fish in his Net. "Do you know," remarked a gentleman familiar with the facts, "that there were a full two thousand deadheads on the grounds on the first day of the races and that on the succeeding days the number was not much smaller, while one thousand tickets would have covered every horseowner, driver, swipe and other person en-

titled to free admission?"

The reporter was aware that there were many who did not pay to get in, but had no definite information as to the number. "Yes, there were no fewer than two thousand on the first day, and the gatekeepers well know that Sterling R. Holt is responsible for that state of facts. Sterling is a candidate for Treasurer of Marion generosity. These deadhead tickets were given to good Democratic workers, who will doubtless appreciate the kindness of Mr. Holt, as they were enabled thereby to see the races for nothing and used the money they might otherwise have paid at the gate, to play against 'Old Hy.' Some of the members of the driving association do not feel as kindly toward Holt as they did. They think the receipts would have been larger had it not been for the great generosity of the candidate for treasurer. The genuine horsemen in the association are beginning to awaken to the idea that they have been 'worked' by Holt, who has made himself a clever, open-handed fellow at their expense. When Holt was nominated it was predicted that he would show us some new wrinkles in conducting his canvass, but we did not then know he would have as soft a snap as this race meeting has proved. We that there will be no. race-meeting next The Police Had the lest of it in Yesterday' fall, unless the newspapers let up on 'Old Hy' and the other games that President Holtprotected. Perhaps Mr. Holt will not care much about a fall meeting. He may not be able to work it in his canvass, which will then be far advanced, with the signal success that has attended the summer meet-

South-Side Republican Club. The South-side Republican Club met at Lovely Lane Church, last night, to make arrangements for a grand ratification meeting to be held at that church on the evening of Aug. 4, under the anspices of the club. Quite a number were present. The following persons have been selected as speakers for that evening: Rev. James A. Davis, James Williams, Merrill Moores, Frank McCray, Sidney Hinton, G. W. Cable, editor of Republican Line, and S. A. Furniss. J. B. Rush will act as master of

After remarks by J. D. Rush, E. W. Vaugn and others the club adjourned to meet next Tuesday. The club has a large membership, and promises to do good work for the party during the campaign.

Thunder-Storm That tent the Mercury Toboganning Down Seventeen Degrees.

The less said about the weather the better, perhaps, yet, for the sake of those who entertain any doubts about the matter, it might be said that the indications are fair weather and high temperature for several days yet. There is a little storm forming in South Dakots and moving e st. If this storm develops, cooler weather may be expected here within two days. This is possible but hardly probable.

The lively thunder-storm yesterday afternoon was gratefully received by everybody except those lostering pleasure-seekers who generally find themselves with an umbrella in fair weather and without one in a shower. The coming of the storm caused the Weather Bureau thermometer to fall 17° in ten minutes, which is a rare event in that matrument's chronicles. The atmospheric pressure being so light in the summer time causes the velocity of storm travel to be slower and more uncertain than in the winter, while little storms may rise unexpectedly anywhere. This fact makes the predictions correspondingly uncertain, says Mr. Wappenhans, while at another season of the year the same might be al-

most implicitly relied upon. At 5 o'clock yesterday morning the ball was set rolling under a temperature of 790. which tigure was sustained until 7 o'clock. At 7 the thermometer registered 84° and at 8 o'clock 86°. At 9 A. M. the mercury took a long breath and tipped the beam at 90° strong. At 10 o'clock it had gained 2º and one more at 11, but at noon 96º was registered. The temperature fell 1º between 12 and 1 o'clock, but at 2 P. M. swung back and up another notch to 97°. At 3 the mercury was at 90°, and between that hour and 4 o'clock there was a fall of 170. At 6 o'clock the temperature went up to 78°, and remained there until 9 o'clock last night. The street thermomone on top of the ingalis Block, marked a corresponding increase of temperature all shrough the day of about 1".

Good for the Crops Following is the resume of the weather erop bulletin issued by the Indiana Weather | tard.

Service, in co-operation with the Agricultural Experiment Station at Purdue University, for the week ending yesterday: "The ram-fall was very insufficient and baily distributed as none or very little fell on many fields, while a few in the southern portion had moderately good rains at the beginning of the week. The temperature was excessive every day and very hot the latter part of the week, with plenty of sunshine. These conditions were very favorable for the handling of wheat and harvesting the immense crop of hay; also for corn, which grew rapidly and the fields could be well cultivated during the dry weather; but rain is now needed everywhere, especially for corn and pota-toes. Threshing continued and is nearly done in the southern and central portions and the yield is good. Tobacco in the southern portion is growing nicely, but potatoes do not seem in best condition in some fields. The melon and fruit crops do not promise very well, but berries are abundant."

Prostrated by Heat. Mrs. Thomas Markey, wife of the ex-Conneilman, was prostrated by the heat, at her home, 81 High street.

SECRETARY STOLL STICKS

Given a Vote of Confidence by the State Committee of the People's Party.

Promised a Raise of Salary and an Assistant -East, of Matison County, to Succeed Houser on the licket.

The State central committee of the Peo-

ple's party held its first session since the

State convention yesterday at the English

Hotel, on a call for the purpose of selecting a successor to J. A. Houser, who resigned as the candidate for Lieutenant-governor, and of George C. Stoll, who resigned as secretary of the committee. Mr. Stoll's reason for pressing his resignation was based on the action of the Central Labor Union of Muncie, which recalled its indorsement of his paper as the union organ for, as it was alleged, non-union practices. He stated, it is said, that he did not want to hamper the committee and desired to give the members an opportunity to do as they thought best. In response to a request for his side of the story he denied having committed any act unworthy of a union man, and said that his ejection from the printers' union at Cleveland was accomplished only after two acquittais, and then only by one vote. The motive, he charged, was wholly spiteful on account of political differences, he then having been a Republican and his persecutors Democrats. This explanation was accepted by the committee, and Mr. Sto! was given a unanimous vote of confidence. He still continued, however, to press his resignation, and only consented to withdaw it when voted an increase of salary, and given the

authority to hire an assistant. Mr. Stoll was reserved last night in his answer as to whether he would continue to serve or not. It has been suggested that a promise of salary from the State committee of a party so utterly without hope of success is far from tlattering, and that Mr. Stoll's business sense is up in arms against doing the hard work of the campaign fo bare sentiment. A second resignation would not be a surprise.

The secretary, Mr. Stoll, refused to disclose the name of the gentleman selected to succeed Dr. Houser. He said the fact of his nomination to the office had not ye been disclosed to the gentleman, and it wasnot known whether he would accept or not. The selection would not be announced until an answer is received. From an outside member of the State central committee it was learned that the new candidate is Thomas S. East, of Madison

"Was it not Mr. East?" was asked of Mr. The tope of the answer was evasive, and Mr. Johnson, the Eighth district commit-

teeman, spoke up and said: "We do not want the name published until we hear whether the man selected will accept." The reason for so much secrecy is not perfectly plain, as it is apparent that the party has nothing whatever to lose, wheth-

er this office has a candidate or not. The committee further discussed the plan of campaign, which is described by one member as of the "still-hunt" order. The formal opening in the counties of the State was set for the first Saturday in Septem

STOPPED BY THE STORM.

Base-Ball Game.

The pelicemen and firemen played base ball again yesterday for a little while, with slarming results. At the end of th first half of the second inning th score stood 4 to 2 in favor of th police, at which time the rain-storn stepped in and made a home-run There were about five hundred spectator present, and might have been more had not been for the storm. The same nine played yesterday as on Monday, and wil repeat the effort next Saturday at 3 P. M The death of league base-ball in this cit has inspired these two fraternities, and i enough men can be spared regularly to play ball and, at the same time, preven the city from burning up or running away, a local home team will be organized that will be a pride to all true here-worshiper and give the local sports a place to place their displacements.

Suburban Tax-Payers Who Realize That Democracy Is a Costly Burden.

Property-Owners in Woodruff Place and Mount Jackson, and What They Have to Pay Under the New Law.

The following lists include the names of all tax-payers of Woodruff Place and Mount Jackson who owned the same prop erties in 1890 and 1891. All names are given, whether the taxes have been increased or decreased, the lists being a transcript of the tax duplicates in the auditor's office, only emitting corporations and such persons as have purchased or sold property between April 1, 1890, and 1891. Names have not been taken where improvements have been made or removed, or where the sale or purchase of any property has altered the holding of the tax-payer. It will be seen from an examination of these lists that our able Democratic officials have continued to place the burden of taxation upon the owners of small homes. In Woodruft Place, the most aristocratic suburb about the city, the per cent. of increase is 26, while in Mount Jackson, where the holdings are all small, the per cent. of increase is 45-more than double.

Readers are requested to compare these lists with their tax-receipts, and to notify the Journal of any errors they may discover. It is the intention that the lists should be absolutely correct, but any errors that may creep in will be at once corrected if attention is called to them.

Democrats Have a Row in Allen. "The Democratic party of Allen county." said a Fort Wayne man, formerly a Democrat, but now in the People's party. "is all split up over dissatisfaction with the nommations for sheriff, prosecuting attorney and commissioner in the first district. The nominee for sheriff is Clausmeyer, who secared his election by fraud in the Second ward. The tally-sheet and ballots were burned, and the friends of Mannix, who was defeated, threaten to knife the beneficiary of such methods. The opposition to Mr. Colerick, candidate for prosecuting attorney, comes from his general unpopularity. The candidate for commissioner, Mr. Jones, provoked red-hot opposition by his support of the present superintendent of the poorfarm, who has held the office twelve years and made many enemies. Our party expects to elect our candidates for these

three offices." Feir Grounds Improvements.

The executive committee of the State Board of Agriculture will meet to-day to open bids for the construction of the two main entrances to the fair grounds. One is to be situated at the Thirtieth-street entrance and one near the bridge. J. F. Alexander, the board's architect, is also designing a handsome building for the Studebaker company and one for the W. C. T. U. Six car-loads of lumber arrived yesterday, after long delay, and it is now thought there will be no more hindrances. President Baggs said, yesterday, he saw no reapleted in time for the fair.

Stopped Drinking and Went Insane. An insanity commission yesterday decided that Edward Williams, proprietor of an East Washington-street saloon, was of unsound mind. Insanity is supposed to be due to la grippe and excessive drinking. About a month ago he quit drinking, and very soon thereafter began to show signs of insanity. He had a mania for promenading upon the street in his night clothes during the night and wearing an oversupply of apparel in the daytime. It is said be would take a hatchet and vainly endeavor to drive flies into the wall with it, and wash dishes in the finest qualities of wines and liquors. He also made threats against his wife and other persons.

She Was Bir Enough to Spank Him-James Smith was brought into the Police Court, yesterday morning, upon a charge of assault and battery upon his wife. When the wife appeared, she loomed up about twice the size of her little husband. She had a discolored eye, which she said had been put in that condition by her husband. He said the injury was inflicted accidentally while he was trying to take a club from her. The court thought one was as much in the wrong as the other and acquitted Smith.

Gandy Again Arrested.

Ed Gandy was arrested last night by patrolmen Fickle and Boylan upon an indictment charging him with obtaining money under falso pretenses. About a month ago. upon complaint of Higgins & Moxley, proprietors of a saloon at the corner of Mississippi and Washington streets, Gandy was arrested for the same offense, it being alleged that he gave them a check on a bank and drew the money out of the bank before B. Orton defended him in the Police Court and he was acquitted. The case was then taken before the grand jury and an indictment found.

Rhodes Resigns.

Baby's Fearful Suffering from Skin Disease Covering Entire Body Cured by Cuticura, My baby was taken very sick when he was

three months old. and in a few days began breaking out. We employed both of the home doctors, and they could do nothing for him. Then we sent for the best dector in Eaton Rapids, Mich., and he doctored him for two weeks, and he got worse all the time; and then I took him to Jackson, to a doctor

who attends especially to skin diseases, and then he got worse than ever. Then I told my husband we had better try the Cuticura Remedies any way; did not have any idea they would do any good, but in less than two months from the time

we began giving them to him he was entirely well and not a spot on him. His hair began growing right off, and we thought he would always be bald-headed. There was not a spot on his whole body, face, and head, only his nose and eyes, but what was as raw as beef-steak. So poor there was not anything but bones, and so weak he could raise neither hand nor head.
MRS. FRANK BARRETT, Winneld, Mich.
